The mobile awning ...

Sun sails - Awning

Whether the sun is burning, or it is still a bit cool in spring days. With a sun sail you can enjoy almost any weather conditions. In midsummer you can sail without a cap. And then open the fan flap! There is nothing better. On cool days, turn on the heating, open the roof, the awning fends off the cool wind. You will enjoy it! And it also looks cool.

The awning is installed when the rolling roof is opened and can also be used with the closed roof in the 2CV. Another fun factor for your trips.
